

Q. **Reference: Response to NP-NLH-103**

In a table provide the dates for every generation test completed by Newfoundland Power, whether the test was completed successfully, what levels of hydraulic and thermal production were achieved, and Newfoundland Power's actual production at the time of peak for that winter season.

A. Please refer to Table 1 for the results of the hydraulic and thermal production test that were successfully achieved.

Table 1: Generation Capacity Test Results¹

Date of Test	Time	Thermal Production (MW)	Hydraulic Production (MW)	Total (MW)
February 5, 2026	10:30–11:30	38.3	85.2	123.5
