ISLAND INDUSTRIAL CUSTOMER GROUP'S ISSUES LIST

(Submitted November 13, 2026)

The Island Industrial Customer Group intends to address the following issues, including the reasonableness and appropriateness of the proposals and alternatives raised in the evidence:

1. Proper classification of the balances in the Long Term Supply Cost Variance Deferral Account;

2. Proper allocation of capacity related balances in the Long Term Supply Cost Variance Deferral Account;

3. Whether demand related costs should be allocated based on class peaks consistent with a P90 load condition;

4. Classification of Holyrood Thermal Generation Plant general plant costs;

5. Classification of Holyrood Thermal Generation fuel costs;

6. Newfoundland Power's hydraulic generation credit;

7. Newfoundland Power's thermal generation credit;

8. Classification of wind generation costs;

9. Industrial Customer Class rate design;

10. Industrial Customer Class specifically assigned charges;

11. Interest rate for the Long Term Supply Cost Variance Deferral Account;

12. Vacancy rate to use for the test year revenue requirement;

13. Productivity adjustment to use for the test year revenue requirement; and

14. Holyrood Thermal Generation Plant depreciation.

The Island Industrial Customer Group reserves the right to amend or supplement this list as the evidentiary record in the Application develops.

DATED at St. John's, in the Province of Newfoundland and Labrador, this 13th day of November, 2026.
