TO: The Newfoundland and Labrador Board of Commissioners of Public Utilities (the “Board”)

INTERVENOR SUBMISSION OF NEWFOUNDLAND POWER INC.

A. General

2. Newfoundland Power wishes to participate in the Application.

B. Interest of Newfoundland Power

3. Newfoundland Power purchases approximately 93% of its electricity requirements from Hydro. As Hydro’s largest customer, Newfoundland Power’s interest in the Application includes, without limitation, an interest in ensuring Hydro’s proposed capital expenditures and leasing obligations for 2027 are reasonably necessary for Hydro to meet its obligation to provide electrical service as required by the Act and the EPCA.

C. Disposition Advocated by Newfoundland Power

4. Newfoundland Power submits that the Board is required by the Act to approve those proposed improvements or additions to Hydro's property for 2027 as are shown by the record before the Board to be reasonably necessary for Hydro to meet its obligations to provide electrical service as required by the Act and the EPCA.
5. As of the date of this submission, Newfoundland Power is in the process of reviewing and analyzing the Application. As such, Newfoundland Power has not had an opportunity to determine the disposition of the Application that it may advocate.

D. Facts and Reasons Supporting Intervention

6. The primary reason for Newfoundland Power's intervention is to receive and consider materials filed in support of the Application so as to be in a position to assess whether the record before the Board indicates that Hydro's proposed capital expenditures and leasing obligations for 2027 are reasonably necessary for Hydro to meet its obligations to provide electrical service as required by the Act and the EPCA.

E. Participation of Newfoundland Power

7. Newfoundland Power proposes to fully participate in the hearing of the Application and the various procedures associated with the Application including, without limitation:
 - a) directing requests for information to Hydro as may be permitted by the Board;
 - b) participating in technical conferences or similar processes mandated by the Board;
 - c) submitting evidence, including expert evidence, as necessary and making representations to the Board concerning the disposition of the Application;
 - d) cross-examining witnesses as may be appropriate in the circumstances; and
 - e) participation in other processes as the Board may mandate or allow or circumstances may require.
