

1 Q. Further to the response to PUB-NLH-264, which stated that further studies would  
2 be performed, please provide any additional studies that have been completed  
3 since the Preliminary Interconnection Study. If not completed, state the dates for  
4 expected completion.

5

6

7 A. Interaction studies between the Maritime Link and the Labrador-Island HVdc Link  
8 can only be completed after exchange of PSCAD™ models. Based upon the  
9 response to PUB-NLH-530, Hydro does not anticipate receipt of these studies until  
10 mid 2016 at the earliest.
