

1 **Q. Provide a list indicating the Newfoundland Power/Newfoundland Hydro**  
2 **interconnection locations by voltage.**

3  
4 A. Interconnections between Newfoundland Power and Newfoundland and Labrador Hydro  
5 (“Hydro”) are locations where Newfoundland Power purchases electricity from Hydro  
6 and where Newfoundland Power delivers electricity to Hydro. This response does not  
7 include interconnection locations with Corner Brook Pulp and Paper’s transmission  
8 system or interconnection with non utility generators.

9  
10 Table 1 provides a list of interconnection locations where Newfoundland Power  
11 purchases electricity from Hydro.
